

Eurowaste Policy Statement

Mission & Vision

Our mission at Eurowaste is to provide responsible and sustainable waste management solutions that meet the needs of our customers and communities while protecting the environment.

Eurowaste strives to be the leading provider of waste management services in Europe, providing expert guidance and innovative solutions that promote responsible and efficient use of waste streams.

Eurowaste is committed to ensuring the safety and well-being of our employees, customers and communities while having a positive impact on the environment. Our ultimate goal is to create a cleaner, greener and more sustainable future for all.

Our vision at Eurowaste is to guide industry in responsible and sustainable waste management, by ensuring that all chemical and industrial waste is properly collected, treated and disposed of in an environmentally safe and ethical manner.

We strive to be the trusted partner of our customers and communities, providing expert guidance on waste legislation and creating innovative solutions that benefit the environment and society.

We envision a future where waste is seen as a valuable resource and where Eurowaste continues to play a crucial role in promoting a greener and cleaner world.

Values & Standards

Values:

Sustainability: Eurowaste is committed to promoting sustainable waste management practices and reducing our impact on the environment.

Responsibility: Eurowaste takes full responsibility for our actions and the impact they have on our customers, employees and the environment.

Innovation: Eurowaste is driven by a passion for innovation and a desire to continuously improve our waste management solutions.

Customer focus: Eurowaste is committed to meeting our customers' needs and providing expert guidance and personal service.

Teamwork: Eurowaste believes in the power of teamwork and collaboration to achieve our goals and make a positive impact.

Standards:

Act with integrity: Eurowaste always acts with honesty and transparency in all our dealings with customers, employees and stakeholders.

Respect for the environment: Eurowaste treats the environment with respect and take measures to minimise waste and conserve resources.

Continuous improvement: Eurowaste strives for continuous improvement and constantly look for new ways to improve our waste management solutions and reduce our impact on the environment.

Open communication: Eurowaste encourages open communication and cooperation between employees, customers and stakeholders to promote effective waste management practices.

Customer satisfaction: Eurowaste is committed to our customers' satisfaction and aim to make a positive impact on their lives and communities.

By embracing these values and standards, Eurowaste can maintain a strong, positive culture and have a lasting impact on the environment and society.

How do we see our sustainable future?

A sustainable future is one in which we prioritise the well-being of current and future generations by balancing economic, social and environmental considerations.

This requires a shift in our behaviour and attitude towards the use of natural resources, with an emphasis on waste reduction, energy conservation and preservation of the natural environment.

In a sustainable future, Eurowaste will commit to renewable energy sources, apply responsible waste management. We will also work to reduce our carbon footprint and mitigate the effects of climate change by applying clean technologies and green infrastructure.

Eurowaste can contribute to the Green Deal by remaining committed to environmental responsibility and sustainable waste management.

Eurowaste can therefore help its customers comply with the Green Deal by offering them guidance in close monitoring of environmental regulations.

By working towards a sustainable future, we can ensure a healthy planet and a better quality of life for ourselves and future generations.
